NATIONAL FORENSIC SCIENCE WEEK
DC DEPARTMENT OF FORENSIC SCIENCES

September 16-18, 2019
Consolidated Forensic Laboratory
401 E Street SW
Washington, DC 20024

DISTRICT OF COLUMBIA DFS
DEPARTMENT OF FORENSIC SCIENCES
Welcome to The People’s Lab!

Thank you for coming to D.C.’s Department of Forensic Sciences (DFS) this evening. On behalf of all DFS employees, we’re thrilled that you’re joining us to recognize National Forensic Science Week. DFS is a multi-tasked agency with a multi-talented staff that does important, behind-the-scenes work to make the District a safer and stronger place to live, work and visit.

At DFS, we apply scientific principals and technological practices to assist decision makers in matters of criminal justice, national security and public health. The testing conducted by our scientists provides critical information regarding evidence mainly collected from crime scenes – such as DNA, bullet casings, fingerprints, digital devices, and much more. Our work is definitive and factual, and never influenced by argument, emotion or opinion. We’ve taken great measures over the last few years to ensure we deliver the most accurate data available in the most efficient manner to best serve the people of the District of Columbia.

I congratulate the members of the National Forensic Science Week committee who have worked hard to organize this week’s events. This year’s theme, “Fact vs. Fiction,” will educate community members, and potential future jurors, on the facts, capabilities and limitations of forensic sciences.

And I am especially eager to welcome everyone from our community to take a look around the building and meet some of the members of our team. We are fortunate to have such generous support of the District residents and we are excited to have you visit your laboratory, The People’s Lab.

We Are… DFS!

Dr. Jenifer Smith

Director
NFSW Kick-Off Day
September 16, 2019 10am-2pm
Join us in celebrating the forensic sciences.

Location: Hayward Bennett Room
DC DEPARTMENT OF FORENSIC SCIENCES
401 E STREET, SW
WASHINGTON, DC 20024
MESSAGE FROM THE COMMITTEE

The Department of Forensic Sciences (DFS), National Forensic Science Week (NFSW) Committee is excited you have chosen to participate in our 4th annual DFS celebration.

The purpose of NFSW is to recognize the important role that proper forensic science plays in the investigation of crimes throughout the nation, from exonerating the innocent to identifying the guilty.

Our theme this year is Forensics: Fact or Fiction and our activities have been planned to highlight some common misconceptions in the field of forensic science and illuminate the truth of what we can and cannot do.

NFSW is nationally recognized from September 15 – 21, 2019 and DFS is hosting two (2) major events to commemorate the occasion as follows:

- Monday, September 16: Kick-Off Event
- Wednesday, September 18: Community Outreach Event

Our activities this year include a forensic sketch artist, making fingerprint flowers, hands on strawberry DNA extraction and unlocking mobile digital mysteries. To explore your knowledge of forensic fact or fiction, we have a DFS Jeopardy contest and DFS Mystery Theater: Sherlock Holmes and the Case of the Clumsy Crook. There will also be a panel discussion on The CSI Effect on Criminal Cases and its Effect on our Community.

We are thrilled you are here in the People’s lab and hope you thoroughly enjoy the planned experience.

Sincerely,

Miss Karen A. Wiggins
Chair, DFS National Forensic Science Week
Acting Deputy Director / FSL Director

Executive Panel Biographies

**Jenifer Smith, PhD**

Dr. Jenifer Smith was appointed as the Director of the Department of Forensic Sciences (DFS) in July 2015. Smith is a retired Federal Bureau of Investigations (FBI) Special Agent, having served for 23 years, and was formerly a faculty member at Pennsylvania State University from 2010-2015.

At the FBI Dr. Smith oversaw DNA analysis, implemented numerous analysis methods and testified in hundreds of cases. As a member of the US Government Senior Executive Service, her final assignment with the FBI was Chief of the Weapons of Mass Destruction Intelligence Analysis Section. Dr. Smith also led the CIA’s Biological Technology Center and has served on several federal advisory groups that support national security entities concerned with microbial forensics.

As a DFS consultant, Dr. Smith provided her expertise in assessing the findings of the Independent Audit of the Forensic Biology Unit, and provided her recommendation for trainings on DNA mixture interpretation. As a direct result, the Assessors from ANSI-ASQ National Accreditation Board (ANAB) in their follow up assessment in June 2015 accepted all of the Department’s corrective action responses.

Dr. Smith’s goals for DFS include strengthening communication and collaboration between DFS and key agencies while maintaining scientific integrity and independence; emphasizing strong management and fiscal responsibility; and conducting and delivering the highest quality testing and results.

Dr. Smith holds a Bachelor of Science in Biochemistry from Pennsylvania State University, a PhD in Physiological Chemistry from Ohio State University and Post Doctorate from Harvard University.
Karen A. Wiggins, MA

Miss Karen A. Wiggins is the Acting Deputy Director of the DC Department of Forensic Sciences (DFS) which includes oversight of the Agency’s Human Resources, Quality, Training and Information Technology services. She is also the Forensic Science Laboratory (FSL) Director with accountability for the overall operational performance, strategic initiative planning, and fiscal responsibility of the forensic biology/DNA, digital evidence, firearms examination, latent fingerprint and forensic intelligence units. Prior to serving as the FSL Director in 2015, Miss Wiggins was the DFS Deputy Director of Quality where she monitored agency accreditation, certification and quality control accountability for the entire agency, specifically the Forensic Science Laboratory division, the Public Health Laboratory division and Crime Scene Sciences. Miss Wiggins was also a Lead Assessor for ANSI-ASQ National Accreditation Board, ANAB conducting independent ISO/IEC 17025 assessments of state, local and independent forensic laboratories. Moreover, Miss Wiggins is a retired civilian from the DC Metropolitan Police Department (MPD) where she last served as Executive Director of the Firearms and Fingerprint Examination division. In addition to primary accountability of the forensic firearms and latent print analysis operations, she was also head of the District of Columbia Automated Fingerprint Identification System (DC AFIS), the DC Mugshot Retrieval system, and of MPD biometric automation.

Miss Wiggins is a native Washingtonian who holds a Bachelor of Science degree in Engineering from the University of Virginia, a Master of Arts in Communication from American University and a certificate in Public Management from the George Washington University.
Dr. Maya Rockeymoore Cummings

Dr. Maya Rockeymoore Cummings is Founder, President, and CEO of Global Policy Solutions, a certified B Corporation and mission driven strategy firm, dedicated to helping community-based, philanthropic, academic, governmental, and corporate organizations achieve strategic objectives. The firm specializes in coalition building, public policy analysis and research, program development, project management, and government relations.

A noted speaker and author, Dr. Rockeymoore Cummings' areas of expertise include health, social insurance, economic security, education, technology, women's issues and youth civic participation. She is the author of The Political Action Handbook: A How to Guide for the Hip-Hop Generation and co-editor of Strengthening Community: Social Insurance in a Diverse America among many other articles and chapters. Her frequent speaking engagements have included invitations from the Centers for Disease Control and Prevention, Economic Policy Institute, U.S. Senate, U.S. House of Representatives, Congressional Progressive Caucus, Drexel University, Women Donors Network, National Association of Black Journalists, and Grantmakers in Aging among many other organizations. She has been quoted extensively in publications such as the Washington Post and New York Times and has appeared on MSNBC, CNN, and C-SPAN among other news outlets.

Dr. Rockeymoore Cummings previously served as the Vice President of Research and Programs at the Congressional Black Caucus Foundation, Senior Resident Scholar at the National Urban League, Chief of Staff to former Congressman Charles Rangel, Professional Staff on the House Ways and Means Committee, and as a CBCF Legislative Fellow in the office of former Congressman Melvin Watt among other positions.

The recipient of many awards, including the Aspen Institute Henry Crown Fellowship, she was elected Chair of the Maryland Democratic Party, a volunteer position, in December 2018.
P. Dawn Sorenson started her forensic career in 1989 as a criminalist for the San Bernardino County Sheriff’s Department Scientific Investigations Division (SBCSD-SID) in San Bernardino, California. She spent five years here performing solid dose narcotics analysis, clandestine laboratory investigations, crime scene photography, latent print processing, providing instruction to law enforcement and firefighters, and testifying throughout the county and federal criminal court systems. During her time with the SBCSD-SID, she investigated over 500 clandestine drug laboratories and thousands of controlled substance cases. In 1995 she joined the Naval Criminal Investigative Service Regional Forensic Laboratory (NCIS-RFL) in San Diego, California. As a bench criminalist with NCIS she expanded her areas of expertise and became a qualified expert in the additional areas of crime scene reconstruction, bloodstain pattern analysis, explosives analysis, fire debris analysis, and trace chemistry. She traveled throughout the Western hemisphere in response to crime scene and clandestine laboratory investigations. She was a frequent instructor in crime scene and forensic investigations to US military and federal law enforcement agencies. In 2001, Dawn became the Director of the NCIS-RFL. Soon after this she was requested to work with Hollywood producer and screenwriter, Don Bellisario on a new television crime series he had in development based on NCIS. She worked with the show writers, actors, prop artists, and numerous others. She reviewed the scripts and provided on-set advice. She continued to provide this unusual forensic support despite being transferred to NCIS Headquarters in Washington, DC in 2005 where she became the Chief of Forensics for the NCIS forensic laboratories. In the fall of 2005, Dawn was asked to take on another new role. At the request of counterparts in Headquarters Marine Corps, she was asked to go to Al Anbar Province, Iraq to advise on whether there was a forensic solution to a battlefield challenge the US and allies forces were experiencing. Dawn created a measured forensic solution to aid in the “catch-and-release” challenges of conducting counter-insurgent operations in the vast and remote areas of Al Anbar Province. She spent months on the ground in Iraq, and later Afghanistan providing first-hand support to ongoing combat operations. This battlefield forensic solution was eventually transferred to the US Army Defense Forensic Science Center as a program of record. In 2007 she left NCIS to become the Chief of the Defense Intelligence Agency (DIA), Forensics, Biometrics, Weapons Technical Intelligence, and Weapons of Mass Destruction Division. In this role she also acted as the Senior Forensic Intelligence expert for both DIA and the USD(I) in regards to forensic and biometric support to warfighter, counterinsurgency, and counterterrorism programs and policies. In 2009, she departed DIA. At present, Dawn remains actively involved in forensics within the intelligence community.
Patrick A. Burke, Executive Director of the Washington DC Police Foundation

On February 6th, 2017, Patrick A. Burke accepted the position of the Executive Director of the Washington DC Police Foundation after finishing a term as the U.S. Marshal for the District of Columbia, a position he was appointed to by President Obama after serving as the former Assistant Chief of the Metropolitan Police Department of D.C. (MPDC).

Burke was nominated by President Obama in February 2016 to the post of U.S. Marshal for D.C., and the U.S. Senate voted to confirm his appointment in May 2016. As the U.S. Marshal in D.C., Burke had oversight over security details for 145 Federal Judges, the fugitive unit and warrant squad operations. Prior to that, Burke served in the MPDC for 27 years, where he attained the rank of Assistant Chief in the Strategic Services Bureau. He resigned as U.S. Marshal to assume the position of Executive Director for the Foundation.

Tyreese R. McAllister, Psy.D Candidate

Tyreese R. McAllister has over 25 years’ experience in emergency mental health helping individuals experiencing both crisis and traumatic events. Tyreese is a doctoral candidate pursing a Psy.D. She is a member of Delta Sigma Theta Sorority, Inc.

While serving her community and developing her career, Tyreese balanced her life with her beloved family. She and her husband, Anthony McAllister of 28 years, are the parents of two beautiful daughters, N’Daja Lyndze’ and Ayana.Jazmy. In March 2017, Ayana was killed by gun violence while home on spring break from college. The McAllister’s, having lived a life of public service and ministry, triumphing over tragedy, founded The Ayana J. McAllister Legacy Foundation, a non-profit organization whose mission is to engage minority communities disproportionately impacted by gun violence through advocacy and education strategies. It is their intention to significantly reduce incidents of homicide, suicide and acts of violence resulting from irresponsible use of firearms by dangerous individuals.

Learn more about the foundation and their work on www.ayanamcallister.com.
Christopher LoJacono, Director, Crime Scene Sciences Division (CSSU and CEU)

Chris joined the DC Department of Forensic Sciences (DFS) in February 2018. As Director of the Crime Scene Sciences Division, he leads the Crime Scene Sciences Unit (CSSU) and Central Evidence Unit (CEU). The 70 scientists, supervisors and managers that make up CSSU process all major crime scenes throughout Washington, DC. The Central Evidence Unit, comprised of 9 specialists and supervisors are responsible for the intake and distribution of all evidence that enters the Department of Forensic Sciences and the transfer of evidence to the Metropolitan Police Department’s (MPD’s) Evidence Control Branch for long-term storage. In addition to internal strategic and operational leadership, Chris is also responsible for creating and maintaining strong working relationships with the Division’s key stakeholders.

Prior to joining DFS, Chris was a founding partner of Columbia Process and Investigative Services. He provided expert strategic and critical analysis of evidence and documents in a variety of criminal and civil cases. His clients included several prominent law firms in the DC metropolitan area.

Chris retired from MPD in 2013 as a Commander/Deputy Chief. His career spanned nearly 30 years, working for seven police chiefs and five mayors. Before retiring, as head of the Internal Affairs Division he successfully oversaw 400 or more internal criminal and/or serious misconduct cases annually. During his career, Chris led several departments and was frequently sought after for his investigative and management skills. In 2008, he successfully planned and executed the largest and most complicated National Special Security Event in the history of the United States for MPD, the 2009 Presidential Inauguration. This event brought more people to one place in one day than ever before in the history of the United States. He oversaw a $24 million budget and a sprawling, multifaceted operation that utilized federal, state and local police resources from across the nation.

Chris also commanded the Forensic Science Division where he oversaw an $11 million budget, centralized the crime scene investigation units and was the MPD lead on the development and construction of the Consolidated Forensic Laboratory from 2002-2008. He was widely known in the Department for employing principles of loyalty, commitment, and dedicated teamwork. He enjoyed a strong reputation as an ethical leader and mentor of junior personnel.

He earned a Master’s Degree in Management from Johns Hopkins University in 2003.

Chris is married with three grown children and two grandchildren.
Keith White, Esquire

Keith White was born and raised in the Brownsville section of Brooklyn, New York. As a member of an under-served and incredibly under-privileged community, Keith is committed to the universal struggle for human equality. This commitment does not just exist in the courtroom but extends to many of his charitable and civic engagements. While a trial attorney at heart, Keith has worked in various fields of discipline.

Keith White began his career as an educator at Boys & Girls HS (while attending Law School) and then as a Prosecutor in The Kings County District Attorney’s Office. Since leaving the DA’s Office, Keith started his private practice, worked as Independent Counsel for Brooklyn Pastor and city leader A.R. Bernard and has worked with NYCHA, HPD, and HUD to develop and build affordable housing for thousands of disadvantaged members of the Brooklyn and New York City community. While previously serving as a 3 year term as co-Chair of the Board of Girls Education Mentoring Services (GEMS), Keith has remained on the Board of this powerful organization that provides continuous and comprehensive services to address the needs of commercially and sexually exploited girls and young women in Brooklyn and throughout the United States. In addition to GEMS, Keith has joined the Board of KAVI (Kings Against Violence Initiative), a non-profit organization founded by Dr. Rob Gore that has become critically acclaimed for violence reduction and providing services to under-served communities in New York. While proud to serve these organizations, Keith is also a founding Board Member of The BKLYN COMBINE, a grassroots non-profit organization that partners with schools in underserved communities throughout the world to provide coding, life skills, mentoring and restorative justice programming.

And recently, Keith has embarked on a journey to strengthen his skills, deepen his knowledge and expand his ability to help others.

As a candidate for a Doctorate in Organizational Change and Leadership at the University of Southern California, Keith is researching, studying and exploring ways to improve the lives of the most underserved communities in the world. Poverty does not have to exist, drug addiction should not be a crime, mental health challenges should not be punished and greed should not be rewarded.

With unrelenting ideals, hope and hardwork, Keith believes that "we can achieve fairness, equity, sustainability and love in our society."

While working on some of the city’s most high profile cases, Keith has never lost focus on his commitment to a client-centered approach. Whether he’s forming a business, negotiating a contract, or litigating a criminal or civil matter, Keith is committed to delivering professional service and client satisfaction.
Aisha N. Braveboy, State’s Attorney for Prince George’s County

Aisha N. Braveboy is the State’s Attorney for Prince George’s County, Maryland. Aisha, daughter of an immigrant from Grenada, is an accomplished lawyer with nearly two decades of legal and legislative experience. Prior to being elected as State’s Attorney, she served as the Manager of Government Affairs for Children’s National Health System. Aisha was also Of Counsel with Gabriel J. Christian and Associates, where she represented clients in criminal and civil matters. In addition, Aisha, for over 17 years, served as General Counsel for the Community Public Awareness Council (C-PAC), a community-based juvenile diversionary program that has successfully diverted over 4,000 students from the criminal justice system.

In 2006, Braveboy was elected to represent the 25th Legislative District in the Maryland General Assembly. As a Delegate, Aisha was appointed by the Speaker of the House to serve as Chair of the Consumer Protection Subcommittee. She was elected by her peers to serve as Chair of the Legislative Black Caucus of Maryland, where she guided the 44-member organization on a wide range of policy issues including parity for Historically Black Colleges and Universities, reducing mass incarceration, enhancing tools to prosecute rapists, increasing opportunities for women and minority-owned businesses and reducing health disparities in our State.

As a lawyer, Aisha was recognized as a rising star by SuperLawyers Magazine and received both the Legal Excellence and Community Service awards from the J. Franklyn Bourne Bar Association and the President’s Award from the National Bar Association.

Aisha has provided substantial pro bono legal representation to members of the Prince George’s County community. In 2015, Aisha represented Teamsters facing the closure of a major supermarket distribution center in the County. Through her efforts, more than 700 jobs were saved.

Additionally, Braveboy has also fought for homeowners who were victimized by their lenders and facing foreclosure, seniors subject to financial abuse from their housing cooperative and a same-sex couple who faced discrimination from their neighborhood association. In another case, she saved a historic African-American home that was moments away from being demolished.

A proud product of Prince George’s County Public Schools, Aisha graduated from Largo High School. She went to the University of Maryland College Park, where she received her Bachelor of Arts Degree in Government and Politics. She also received her Juris Doctorate from Howard University School of Law.

Aisha is a member of the Sanctuary at Kingdom Square and Sigma Gamma Rho Sorority, Inc.

Her motto for the Office under her administration, is that “Crime is personal...personal to the victim, personal to the community and personal to the State’s Attorney’s Office."
What author of *Pudd’n Head Wilson* featured using fingerprints to catch criminals well before they became an official law enforcement tool?
